

Symmetry Smash Paintings

To explore line symmetry in your design:

- 1. Choose your paper and put your name on the back**
- 2. Choose two squeeze bottles of paint and create a design (don't use too much!)**
- 3. Fold paper in half and smash**
- 4. Open and admire.**

**Do you see how your design is reflected on both sides of the folded line?
That fold is the line of symmetry.**
